HICKORY, N. C.

PRO BONO PUBLICO

PREFACE

We take pleasure in submitting Vol. III of the Hickory, N. C., Directory. While no directory is free from errors, we feel sure the Hickory directory will rank above the average city directory and will give general satisfaction. Experienced help only has been used in collecting the data for this directory, and if there are any omissions of names it is not due to the fact that the ground was not fully covered by our canvassers, for a house-to-house canvass was made. It often occurs that a person, in giving the information for the directory, overlooks or forgets to give names of persons that should be listed, and in such cases it is not the fault of the publisher that some names are left out. As a rule these omissions are few. Of course, the printers have to make a few typographical errors—they would not be printers if they did not—but as a whole we know that the Hickory Directory can be relied upon, and will be found by all who use it to be a very valuable book of information, and one which no up-to-date business man can afford to be without.

We desire to thank our patrons for their liberal support, by which this publication was made possible. We also desire to extend our thanks to our many friends and the public in general for the courteous way in which they supplied us with the proper data. It is a pleasure for us to publish a directory in a city where the people are interested and where they are willing to co-operate with us and lend their aid in the making up of a work of this character as was the case in your city. This of itself is good evidence that Hickory is a good, live, up-to-date city, and a good place in which to live.

We shall continue this publication bi-annually, and promise you efficient service.

He is hurrying to consult the New City Directory

The City Direc-tory

Is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the lists of those who sell do themselves great injustice. The classified lists in the Business Directory form the best buyer's guide on earth. A modern up-to-date method of getting what you want.

—O—

CONSULT:

The classified lists of names arranged according to trades, professions and pursuits in the Business Directory, (following the alphabetical list of names). They afford a valuable guide for the buyer, the seeker for professional aid, and those needing the services of skilled artisans.

The Association of North American Directory Publishers

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of the Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and protective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by other means as may, from time to time, be shown to be wise, proper and lawful.

$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.
